EXPERIENCE

Palace Unity., Cyprus — *Full Stack Developer and Chat Support*

JANUARY 2026 - PRESENT

- Architected and maintained scalable web applications using React.js, Next.js, and Tailwind CSS, ensuring high-performance UI and responsive design across all user touchpoints.
- Conducted rigorous testing of internal property management software, identifying technical bottlenecks and delivering actionable insights for feature optimization.
- Integrated AI features into existing system, requiring deep validation model outputs and performance across various scenarios
- Guest Communication & Support: Managed end-to-end technical support for international short-term rental properties, utilizing deep system knowledge to resolve complex booking issues and improve the overall guest experience.

Peachwiz Inc., US— *Full Stack Developer*

OCTOBER 2019 - OCTOBER 2025

- Developed and maintained full-stack web applications, which provided extensive experience in system-level integrity and end-to-end functionality testing.
- Specialized in API Development and integration, requiring thorough testing of data integrity, endpoint reliability, and security to ensure system stability.
- Integrated AI features into existing system, requiring deep validation model outputs and performance across various scenarios
- Utilized Laravel,PHP(raw),jQuery, and MySQL to build and test features, gaining critical insight into the software development lifecycle and common failure points.

Acaciasoft, Philippines— *Full Stack Developer*

JANUARY 2018 - OCTOBER 2019

- Contributed to system development and deployment, focusing on robust and error-free code delivery.
- Regularly performed debugging and troubleshooting to resolve critical application issues before production release, directly

SKILLS

Analytical Skills

Professional Work Ethic

Adaptability

Leadership

TECHNICAL SKILLS

Languages/Frameworks:
PHP/Laravel,
jQuery,
Python,
Node.js.
Typescript.

Front-End:
React.js,
Next.js,
HTML5,
CSS3,
Tailwind CSS,
Bootstrap,
AJAX,
JavaScript.

Others:
AI-Assisted Development
Postman,
Git,
Navicat,
VS Code,
Notion,
Software Testing,
Putty,
Docker,
Server Administration

contributing to software quality.

- Worked with front-end and back-end systems, developing a comprehensive understanding of how user actions translate into server-side processes, thus developing important skills for test case design

LANGUAGES

English and Filipino

EDUCATION

ICCT Colleges Foundation, Philippines — BS Information Technology

2014- 2017
